## **AGENDA PLACEMENT MEMO**

**DATE:** May 24, 2010  
**TO:** Commissioners Court  
**FROM:** James Wells  
**SUBJECT:** Quarterly Investment Report

### **REQUESTED ACTION/RECOMMENDATION**

**Acceptance and approval of the Denton County Investment Report for the Quarter Ended 3/31/2010**

### **BACKGROUND**

**Per the provisions of both the Public Funds Investment Act of the State of Texas (Chapter 2256 of the Government Code) and the County's Investment Policy, the County's designated investment officer(s) should submit an investment report to the Commissioners Court at least quarterly. The report must: (1) describe in detail the investment position of the County on the date of the report; (2) be signed by the investment officer(s); (3) contain a summary of each pooled fund that states its beginning and ending market values for the period as well as additions and changes to the market value; (4) report the book value, market value, maturity date and account or fund for each separately invested asset; and (5) state the compliance of all investments with the County's investment policy and the Public Funds Investment Act.**

**This report is submitted to the Commissioners Court in order to satisfy the requirements stated above for the quarter ended 3/31/2010.**

### **OPERATIONS AND MAINTENANCE**

**Investments and cash management are the responsibility of the County Treasurer and the County Auditor. These officers were designated as co-investment officers for the County at the June 6, 1996 meeting of the Commissioners Court.**

**Managing and investing county funds are continuous, ongoing activities. Funds are received on a daily basis, and they are expended on a weekly basis. The receipt of funds does not coincide with the need for expenditures. Therefore, the County always has funds that need to be invested for varying amounts of time. Proper cash management and investment practices will both protect the County's assets as well as maximize interest revenue.**

## **LEGAL INFORMATION**

As stated above, this investment report is required by the provisions of the Public Funds Investment Act in the Government Code of the State of Texas. The Act sets forth guidelines the must be followed in our investment of county funds. It defines legal investments, investment objectives, rules for investment pools, and qualifications for authorized investment brokers and dealers, It requires us to have a written investment policy and that we make the safety of principal, liquidity, and diversification our primary investment objectives.

The Act requires that a quarterly investment report be presented containing the following information:

**Sec. 2256.023. INTERNAL MANAGEMENT REPORTS.** (a) Not less than quarterly, the investment officer shall prepare and submit to the governing body of the entity a written report of investment transactions for all funds covered by this chapter for the preceding reporting period.

(b) The report must:

- (1) describe in detail the investment position of the entity on the date of the report;
  - (2) be prepared jointly by all investment officers of the entity;
  - (3) be signed by each investment officer of the entity;
  - (4) contain a summary statement, prepared in compliance with generally accepted accounting principles, of each pooled fund group that states the:
    - (A) beginning market value for the reporting period;
    - (B) additions and changes to the market value during the period;
    - (C) ending market value for the period; and
    - (D) fully accrued interest for the reporting period;
  - (5) state the book value and market value of each separately invested asset at the beginning and end of the reporting period by the type of asset and fund type invested;
  - (6) state the maturity date of each separately invested asset that has a maturity date;
  - (7) state the account or fund or pooled group fund in the state agency or local government for which each individual investment was acquired; and
  - (8) state the compliance of the investment portfolio of the state agency or local government as it relates to:
    - (A) the investment strategy expressed in the agency's or local government's investment policy; and
    - (B) relevant provisions of this chapter.
- (c) The report shall be presented not less than quarterly to the governing body and the chief executive officer of the entity within a reasonable time after the end of the period.

## **FINANCIAL IMPACT**

Total investment earnings on all County funds have varied from \$7,895,304 in 2007. to only \$1,187,458. These revenue swings, which are basically beyond our control, obviously have significant negative impact on the County's annual budget.

Interest rates have been at historically low levels for more than 21 months now. The current Federal Funds rate is 0.25% which is unchanged from the last several quarters. Currently one year investments would yield 0.35%. The interest rate on the County's master repurchase agreement at Wells Fargo Bank has a current rate of

**0.1%. Our investment pool rates, which averaged 5.2% at the end of September, 2007, currently average 0.16%.**

**Since there is no indication that the Federal Reserve will begin to raise interest rates in the near future, we expect that total investment earnings for 2010 will be very close to the \$1.2 million earned in 2009. The budget for interest income for 2010 is \$1.8 million and we should expect to fall well short of that amount in our budgeted funds.**

### **PROJECT SCHEDULE**

**This report should be submitted at least quarterly.**

### **PRECEDING COURT ACTION**

**There has been no previous action on this specific report. All required quarterly reports have been submitted and approved since the inception of the Act.**
