

Can you find all the mosquito  
breeding sites?

Remember, mosquitoes can breed  
anywhere water can collect.

# ARE YOU READY FOR SUMMER? DON'T LET MOSQUITOES RUIN YOUR FUN!

## STOP RAISING MOSQUITOES.

Use this checklist to inspect your yard and home at least once a week.

Have an adult help you empty and scrub, turn over, cover, fix, or throw out all items that hold water.

| <input type="checkbox"/> Pet water bowls (Every day) | <input type="checkbox"/> Gutters and down spouts |
| <input type="checkbox"/> Toys - trucks, wagons, etc. | <input type="checkbox"/> Old tires               |
| <input type="checkbox"/> Wheelbarrows                | <input type="checkbox"/> Tree holes              |
| <input type="checkbox"/> Flat roofs                  | <input type="checkbox"/> Rain barrels            |
| <input type="checkbox"/> Pool covers                 | <input type="checkbox"/> Leaky faucets           |

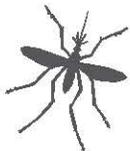

### Other Tips:

- Water lawns and gardens carefully so water does not stand for several days.
- Keep weeds, vines, and grass trimmed since mosquitoes use these shady spots to rest.
- Repair holes in window screens and doors.

### Adults ONLY:

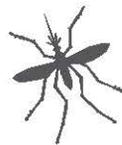

- Maintain backyard pools and hot tubs.
- Treat front and back door areas and awnings around outside of home with insecticides if mosquitoes are bad in the area.
- Treat grass, bushes, and vines with insecticides if mosquitoes persist.

## PREVENT MOSQUITO BITES.

Follow the 3 D's  
of mosquito prevention

- **Drain** standing water.
- **Dress** in long sleeves and pants.
- **Defend** against mosquitoes with an EPA approved insect repellent.
